

CASE STUDY

Barry University was originally founded in 1940 as Barry College for Women. It has grown into a coeducational university that is one of the leading centers for higher level education in South Florida. Barry is SACS accredited to award baccalaureate, masters, specialist, and doctoral degrees.

WHAT PHRASE DEFINES OUR STUDENT NEWSPAPER?
AWARD-WINNING

WAS RECOGNIZED BY
TELEVISION A

We were in the middle of a major site overhaul. There would have been no way for our team to complete assessments on our own. ADASC helped us build content with clear guidelines and establish requirements for the future.”

~Hernan Londono
Chief Technology Officer **Barry University**

OVERVIEW

The project consisted of website remediation and risk mitigation services. The university’s digital platforms expanded with unique URLs, microsites, and landing pages. Our expert analysts and compliance experts are in constant communication with Barry’s IT team. The project life cycle began October 2019, with on-going consulting into 2020

SOLUTION

A targeted approach with quarterly technological audits are assigned to the Barry project. Over 10+ web pages have been audited in multiple rounds conducted by human experts, as well as tested by disabled users. To maintain the website’s accessible and ADA-compliant integrity, detailed technological reports are provided to Barry’s IT team on a quarterly basis.
